INTERVIEW WITH THE PRESIDENT

1. If you were an animal, what would you be and why?

Zebra. The stripes look sexy.

2. Where do you see yourself in 10 years time?

A father with one child.

3. If you were President of the world, what's the first thing you would do?

Distribute the money from the rich to the poor. Maybe increase the tax rate for those with high incomes all around the world.

I would also like to provide free education from primary school to high school for everyone and close down private schools. Just to ensure everyone gets an equal opportunity to learn.

4. One thing people don't know about you?

I used to play X1 (first eleven) football for Rangitoto College.

5. Most embarrassing moment?

Walking into the ladies toilet (Level 0 IC Kate Edgar) :(

6. If you had a super power, what would it be?

To turn back time

7. Favourite colour?

White

8. Boobs or ass?

Boobs

9. Chocolate or vanilla?

Chocolate

10. Any advice or words of wisdom you'd like give to your BPharm fellows?

Time flies in pharmacy! Try out as many things as you can. Whether it is something to do with APSA events or other activities. Not only do you learn from the activities you do but it also shapes who you become. Who knows? You might end up being president like me.

Just to mention, I got into pharmacy as an alternative student. No friends... No fun... But I remember going to one of the APSA events, the soccer tournament. I scored a goal and that year we won the tournament. Through the events I got to meet a lot of people and surprisingly, random people would say hi to me the next day :)

Thinking about it now, I am thankful that I participated in these events and I guess the APSA events have helped me get to where I am now. So, get involved as much as you can.

Ps. Sorry, I seemed to have talked only about APSA events but there are many more you should consider such as summer studentship research, tutoring MAPAS students etc.

Anyways all the best for 2012!

INTERVIEW WITH THE VICE PRESIDENT

1. If you were an animal, what would you be and why?

I would like to be an eagle because they are the king of the sky, free to go anywhere and able to look down on the world. Also I really want to be able to fly.

2. Where do you see yourself in 10 years time?

I want to be a successful person, well established in my profession and able to provide good quality health care :)

3. If you were Vice President of the world, what's the first thing you would do?

Firstly throw a huge ass party. Then replace the government with the APSA committee members. After that, sort out some of the political and financial problems in the world and of course world peace.

4. One thing people don't know about you?

I wanted to be a pilot before doing pharmacy. I've already piloted 2 planes in the past and it is definitely something that I would do again in the future. Maybe create a flying pharmacy service (not for drug drops though).

5. Most embarrassing moment?

My swimming trunks came off once during a swimming tour-

ament when I was 13 years old. I had to do the swim of shame back to the start and put them back on in front of about 200 spectators. Im just too fast!

6. If you had a super power, what would it be?

Teleportation. This would make early morning 8am lectures more bearable. Wake up and boooooom in the lecture, then teleport home for a nap. It'll also be useful in 2nd and 3rd year when you're constantly running between City and Grafton campuses.

7. Favourite colour?

Blue

8. Boobs or ass?

Hmmm Its whats on the inside that counts :). 25% boobs, 25% ass and 50% personality :P

9. Chocolate or vanilla?

I prefer vanilla because you can mix it with many different things.

10. Any advice or words of wisdom you'd like give to your BPharm fellows?

Keep up to date with your work (especially 3rd years). Join APSA, come to our events and most importantly have FUN!!!

LOOK OUT FOR CLASS DINNER ITS
