VOTE JACOB KIZITO AND DIVIYAN SENTHI FOR MARKETING REP

Cha Ching goes the bank! The father and son duo are here to negotiate our way into the pockets of sponsors and improve your university experience! We have learnt from the best by religiously studying Scrooge McDuck, one of the biggest stinges out there.

However, unlike Mr Scrooge we will:

- Display professionalism and maintain the high-quality reputation of the school of pharmacy in the University of Auckland
- Not selfishly spend all our time on ourselves. We will go above and beyond to ensure as much funding is received while maintain sponsor satisfaction
- Use our battle-hardened negotiating skills and “persuasive methods” to achieve mutually beneficial outcomes

What we guarantee is:

- Excellent time management (when we are not counting money)
- Organising seminars with sponsors who are interested in helping us poor students get experience and well-established career on track
- That we are two friendly and approachable blokes who are willing to help all regardless of who you voted for.

Vida for Grassroots Rep 2020

Hey guys I'm Vida & I'm running to be your Grassroots Rep for 2020. Why am I running for this position? Because I want to be more involved in rural health and would like to advocate for the health of those living in rural communities.

Looking back at all my experience on farms, the biggest standout by far(m) was the dairy farm I visited for level 1 geography. Some aspects of my skillset include great gumboot throwing ability, animal whispering (specifically farm animals and peacocks) and I have definitely seen a few tractors.

In all seriousness you can't underestimate a short trip down SH1 to get out of the hustle and bustle of Auckland to immerse yourself in some of NZ's more scenic areas. As part of my role I want to help organise a fun Waikato Weekend, and Rural Health Week ... and am proposing a trip to field days 2020?!?! Suuuurely.

HEY PHARMILY, ARE YOU READY TO TAKE PHARMACY INTERNATIONAL? I SAID ARE YOU READYYYYY!!!

I'm keke, you should love me, I am riding, and I think you should vote for me as next year's IPSF rep! My name KEVIN may be GENERIC but I swear I'm the ONLY ONE for this position! You should vote for me because I:

- ➡ Care about bringing international opportunities for us to travel. Imagine having placements in a country outside of NZ!
- ➡ Have juggled pharmacy with three jobs and multiple extracurriculars (e.g., class rep), yet I still make time to chill with friends and family (so you know I can deal with the workload and get things done right).
- ➡ Have white skin like Snow White, sometimes orange like an Oompa Loompa, but mostly pink like Patrick Star. Basically diverse like a panda.
- ➡ Have stronk networking skills.
- ➡ Listen better than your boyfriend.

Our goal is to bring us onto the world stage, providing us the opportunity to have student exchange pharmacy programmes with overseas universities, ability to attend lit conferences, and the chance to make some lifelong international friends!

**It's not argumentative- vote for
Anastasia as your representative!**

**WARNING:
I am not good at written humor**

I would like to run for this position because I love traveling and meeting new people. I am very active and always happy to be helpful, friendly and open to any people and any ideas. I will be taking part in the Open Day soon, where I will be talking about Pharmacy , and it will give me experience, which could use in the conferences. Even so I've only have studied pharmacy for half of year, I really love it already and I think that it is my Vocation. I am really enthusiastic about what I am doing and would like to share my thoughts and love to Pharmacy with people- in New Zealand, and all around the world

It is easy for me to work with people, as I am a very social and extrovert person. I am a non conflict person, and always there to help anyone, who needs it. I am a good time manager, and I try to organize every day, so I could be as efficient, as possible. I love to be encouraged in different activities- from playing sports to performing songs and talking to groups of people.

I would love to provide information event for a people, who are just thinking about studying Pharmacy, where I would discuss and explain all myths about pharmacy/studying pharmacy. Also, as I am an international student myself, I think it would be interesting to look at how pharmacies are run in different countries and cultures. For example- I could talk about pharmacy in Russia, and compare it to what we have here, and I could also invite people from other cultures, to make this event more diverse and interesting.

It's not argumentative- vote for Anastasia as your representative!

Stella for IPSF Rep

Hi, everyone! I'm Stella (3rd year BPharm student), and I will be running for one of APSA's first IPSF representatives in 2020.

TL;DR (why I'll make a sTellar rep):

- Always on my phone so a quick replier
- Passionate about the Pharmacy Profession and its development 
- Love meeting new people
- Passed everything in BPharm so far hence will be a proud and competent 8-star pharmacy student representing APSA <3
- Bilingual and also very culturally competent!!

Goals within the role:

- To successfully involve APSA within IPSF and thus on an international level
- Increase our School of Pharmacy's alliances and connections with other pharmacy students around the world
- To represent APSA at the 2020 IPSF World Congress
- Help organise future opportunities such as student exchange programmes

#StellatoWorldCongress2020

(me sleeping on the streets of Mexico City)

Bonjour to the Pharmily! My name is Kevin Saravanan and it's an absolute pleasure for me to announce my campaign for the novel role of IPSF Representative for the following academic year of 2020.

The "why" behind my application for this role in particular is the need for Aotearoa to be represented on a global scale. With the ever increasing notion of the world being more interconnected than before, it only seems natural to ask ourselves as to where New Zealand's place shall be within it.

The challenge for Pharmacy and the technological innovations that accompany health care systems across the world requires the representation of New Zealand within the global economy. IPSF as an organization presents this platform for nations all across the world to communicate and collaborate towards the progress of Pharmacy and our roles as future Pharmacists.

The fact that New Zealand still requires membership only makes us take into consideration the magnitude of the job required. Personal attributes that I feel can aid me within this role can be subdivided into two distinct categories: Linguistic/Epistemological abilities and Cultural/Social abilities.

Having lived in New Zealand as a kid and having studied in the Indian Education System and the French Education System (Yeah kinda hard to explain but I graduated with the French Baccalaureate from a French high-school in India, I know "weird flex but okay") and to have then entered uni presented me with a diversity of opportunities across my life (Model UNs). Picking up multiple languages such as French, Spanish, Hindi and Tamil and English from an early age really opened my eyes to the world from a more holistic perspective. This instilled in me the urge to travel more and enabled me to go on exchange within the domain of health to Mexico this previous summer. It was a volunteering programme tailored for primary school children through the organization that I volunteer/work (Marketing/Finance & Governance/Business Development roles) for AIESEC (look us up!) which targeted the combat against obesity and the undeniable need for health literacy. I was accompanied by other volunteers from Colombia, Brazil and Costa Rica (who to this day are my dear friends). Furthermore, I was lucky enough to receive the Prime Minister's scholarship for Latin America that made the trip financially acceptable for poor uni students like us. (Yeah, we all need that moulah, let's be honest) Also, having had the opportunity to visit France, the UK and multiple stops in Singapore and Malaysia only deepens my need and urge to travel ever more. I can say with deep love that I have met an incredible assortment of people with even greater stories that reflect their identities..

In regard to activities and the actual work that shall translate back through APSA and the Pharmily from the IPSF, I would like to put forth

Cross-cultural opportunities for the School of Pharmacy to offer their undergraduates

Promotion of an increase in application for the Overseas Research Program between Parts 3 and 4

Events showcasing our partnerships from the IPSF and enabling more opportunities for people to come to NZ to demonstrate the innovations within the world of Pharmacy.

Monthly reports and updates from the Congress and the School of Pharmacy itself within the script.

I hope this application reflects how enthusiastic I am for this opportunity. In regard to time management, I work as a RA and for AirBnB; Volunteer for AIESEC and play Futsal with some part 3 bois and a lecturer who shall not be named lol. Ready to put in the mahi for you as I do for this degree. Adios from me for now :D

P S N Z

Well Pharmily, I just saw the doctor, and they gave me this script:

mitt. 1 (ONE) **vote** prn for PSNZ Rep stat.

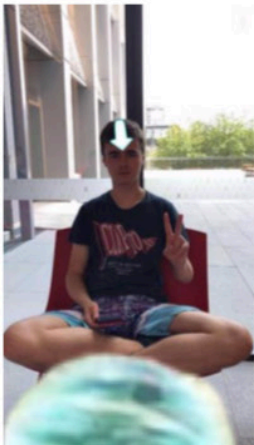

For those who don't know me, my name is **Ben** Lansdown, and I'd like to be your PSNZ representative for this coming cycle.

In this role, I intend to push for more networking events with **PSNZ** and their connections to give us all a better understanding of the job opportunities present outside of just hospital and community pharmacy, as well as getting to know how to get into these roles.

While I haven't had any experience representing a school of pharmacists, I have had experience with boards and leadership teams of companies. Last year I was one of the inaugural winners of Refining NZ's scholar's awards and gave a presentation to their board and leadership team, as well as sat in on a meeting.

I believe I am well suited to this role and will be able to effectively liaise with PSNZ in our best interest as aspiring pharmacists.

Cheers!

Hi Pharmily
I'm Alex Jeen and I'm willing to represent APSA as the
PSNZ Rep.

We all know some of the most enjoyable positions of
APSA,
but does anyone actually enjoy sitting in a room full of
people you've never met and trying to understand what
these senior management people are saying?

That's right me neither.

But what I can offer you is pharmacy's best poker face
and
a great (questionable) work ethic to work with the
APSA
team to promote PSNZ.

A lifelong traditional and culturally endorsed Asian
upbringing has trained me to talk and agree with adults
without breaking a sweat.

For as low as your SINGLE vote you can fill that PSNZ
position with someone who won't complain (in front of
you) and whose specialty is to effortlessly act
professional
in front of adults, and after that we hit shads.

Vote for Alex to see Alcohalex next year at freshers
